

Waiting for an Opportunity

to prove to you—as one of the dwindling few in this community who are strangers to the Live Store—the multitudinous merits of our modern clothing service.

Whatever measure of success this store has won is due solely and only to the growing favor in which it is held by your fellow citizens. And we respectfully submit that the excited position which their verdict accords us is a subject worthy your consideration.

What is it these men find here that they can find nowhere else?

What is it these men find here that clothes to choose from—that draws them here again and again for KUPPENHEIMER clothes at \$18 to \$35?

Being gifted with large bumps of patience and persistence, we wait for you to pay us a neighborly call and see.

FLIES FEAR ELECTRIC FANS

About the only thing a fly or mosquito is afraid of is an electric fan.

While it is not known why these little pests fear the whirling blades, it is certain, however, that an Electric Fan will keep flies off the windows and show cases, and from the candy, vegetables and other foodstuff exposed for sale, even though the breeze is not allowed to play over the places or goods to be protected. Merchants find the Electric Fan invaluable for keeping flies out of their stores.

a fan is placed near the main entrance to the store, so that the air current flows toward the doorway, very few flies will enter.

The fly, that deadliest of household pests, creates stagnant air and hot, stuffy rooms. It causes no comfort and lingers not where Electric Fans constantly and vigorously allow a pure, cool air to abundantly circulate in every nook and corner.

Maysville Gas Co.

MAYBE it is an old fashioned idea this notion of putting all the value possible into the car itself—and as little as possible into overhead expense—

But it has given the Paige a positively dominant position among cars of medium price—
Ample capital for operating purposes—no bonded indebtedness—no excessive capitalization—no heavy overhead of any kind to be paid for.

Just a full dollar of car value for every dollar of the selling price.

Is it any wonder that the Paige is going to be oversold again this year in spite of increased production?
